Our Verdict

A beautifully balanced cable that will work well in a wide range of systems

👍 For

- Detail resolution, dynamics and agility
- refinement and tonal balance

👎 Against

- Long running-in time

📅 Reviewed on **2nd September 2008**

Think of the Revelation as the Award-winning Silver Anniversary's big brother and you've got it pegged. The Revelation is so complete a performer that the improvements fully justify the almost £10/m price premium.

It's brilliantly detailed, yet avoids the tonal brightness **QED** cables tend to favour.

The midrange is nicely balanced and lovingly layered, and lower frequencies have plenty of heft combined with class-leading agility. It all adds up to a cable that's as at home with Busta Rhymes as it is with Beethoven.

Provided your system's good enough to make proper use of a cable like this, you won't be disappointed.
